

## 6 Steps To Get Your

# MARYLAND MEDICAL CARD

### You must:

- Be 18 years old (or older).
- Prove residence in Maryland (at least 2 years) with an ID or you will need 2 forms of proof of residence.
- Provide your full Social Security Number (9 digits).
- Provide an electronic copy of a clear, recent photo with a white background like a passport photo.
- Pay the \$50 fee.

## 1 APPLY

Apply with the **Maryland Medical Cannabis Commission** (MMCC) through **Maryland One Stop**.

## 2 VERIFY

You must click the verification link in your email to **verify your email** account. Without completing this step, your application is not complete and will not be reviewed by the Commission.

## 3 GET YOUR ID

Retain the approval email for your records. It contains your username that will allow you to log into the patient registry portal (Maryland One Stop), as well as your **MMCC Patient ID Number**, which your physician will need in order to issue you a written certification for medical cannabis.

## 4 VISIT PROVIDER

Visit or make a Telehealth appointment with a **Maryland Medical Provider registered with MMCC** to obtain a valid written certification. Visit Maryland One Stop for a list of certifying providers.

## 5 PRINT

Log into your Maryland One Stop portal. Print your **temporary MMCC patient ID card** – this will be required to purchase medical cannabis from any licensed Maryland dispensary.
